Addis Ababa, Ethiopia    (+251) 901-998794    [neguselshaday8@gmail.com](mailto:neguselshaday8@gmail.com)

## Summary

Motivated Computer Science student with a strong foundation in both backend and frontend development, and a passion for building scalable applications. Eager to apply my programming skills and problem-solving abilities at a forward-thinking company where I can contribute to innovative projects, enhance my technical knowledge, and develop effective software solutions. Committed to continuous learning and collaboration in a team-oriented environment to deliver impactful results.

## Skills

- **Programming Languages:** PHP, Java, Javascript
- **Frameworks:** Spring boot, Laravel, React, React-native
- **Databases:** MySQL, SQL Server
- **Tools and Technologies:** Git, Postman

## Education

**Bachelor of Science in Computer Science**  
**Unity University Addis Ababa**  
**Expected Graduation: 2026**

- **Relevant Coursework:** Data Structures, Database Management, Web Development, Algorithms

## Projects

**Recipe-Sharing Mobile Application**

- As a backend developer, I designed and implemented a social media mobile application using PHP for the backend and MySQL for the database structure, while also contributing to the frontend development with React Native. This application enables users to create, read, update, and delete posts, establish profiles, follow others, and interact with posts through comments and likes. The app is set to be uploaded soon, and effective teamwork played a crucial role in its successful development.

### **Software Engineering Team Website**

- Collaboratively developed my first website for a software engineering team as part of a group project for class, utilizing only HTML, CSS, and JavaScript.
- Implemented features for team member profiles, sample project showcases, and contact forms.

### **Employee Management System API**

- Created a RESTful API using Spring Boot and MySQL for managing employee records.
- 

## **Experience**

### **Freelance Backend Developer**

- Collaborated in a team environment to develop RESTful APIs for internal tools, gaining practical experience in backend development.
- Assisted in database modeling, query optimization, and performance tuning for applications.
